### About This Game

Infestation: The New Z is a FREE TO PLAY multi-game mode experience developed based on **community feedback**. Experience a massive open world shooter featuring a dynamic player vs player experience in different game modes and worlds. Discover three separate free-to-play game modes in one game.

### BATTLE ROYALE

Be the last man standing to win. Start with nothing, scavenge and kill your way into victory. Work your way up in the ELO-based leaderboards and become the best player out there!

### SURVIVAL

Scavenge, craft & survive in a massive open world. Find the best loot spots with your friends but be careful, you might run into some pesty zombies or even other survivors! Survival is a game mode where gameplay and loot is influenced by the old *Infestation* series, also released under the title *The War Z*.

### OPEN WORLD

Experience the traditional PvP aspect of The New Z. In Open World players have the choice to play in traditional maps or smaller close combat maps. Loot is common creating a more PvP-oriented experience.

---

Besides the three different and separate game modes The New Z is developed based on community feedback with constant updates & changes. Next to that the game is armed with the custom made "Fredaikis Anti-Cheat" developed for the game.
